

Status Report
from WG9/DVD Forum
on Copy Protection System
for Rewritable and Recordable DVD Disc

AJIMA, Kosuke

Activity Report

- 49th WG9 : August / 22 / 2002
(with AH9-1)
- TCG : September / 4 / 2002

DVD-Forum activity

- DVD-Forum European conference will be open on October 30/2002 in Paris.
- DVD-Forum Japan conference will be open on October 3/2002 in Tokyo during CEATEC.
- High speed recording specification for DVD-R (4X) and DVD-RW (2X) were approved by unanimous vote and were issued.
- Audio recording specification version 0.9 was issued.

Related to Copy Protection

- Video Watermark for DVD
 - DVD-CCA's selection was not concluded.
- There were some requests to have 625P output on DVD players from WG9 members.
- WG9 has started studying implementation of emerging new conditions such as EPN(Encryption Plus Non assertion).
 - There might be conflict of CCIs such as CGMS, APS and so on.
 - To design DVD recorders/players, common rules of implementation are required.
