Changes in DVD Forum Organization

- It was decided that WG-4 (DVD-Audio specifications) would be merged to WG-1 (DVD-Video applications). New scope of WG-1 is DVD-Audio/Video applications.
- A new working group, WG-12, was created to study network application related issues

Multiple Recording of HD DVD-Video Contents on a Disc

- Optional Specification for HD DVD-Video was approved that enables multiple recording of HD DVD-Video contents on a disc
 - Multi-directory structure
 - Up to 128 directories on a disc

CSS Managed Recording

- DVD Forum sent questions to DVD CCA regarding what need to be standardized for “download and burn” of CSS-protected DVD-Video content on DVD Download discs
 - Standardized single format and protocol is a key for wide adoption of the CSS Managed Recording
 - Requirements for CSS content management and protection for a download format need to be clarified
 - Responses to the questions will identify workload of WG-12 that handles download format study and specification
